

MERCURIEN

Protecting People and Assets
in the Mobile Workplace

INSURANCE THAT PROTECT PEOPLE AND ASSETS

KEY BENEFITS

COMPREHENSIVE COVER

Insurance that's competitively priced and provides flexible options:

- Car hire in the event of accident or theft
- windscreen coverage
- multiple excess levels
- monthly payment options

RAPID CLAIMS PROCESSING

Every day that one of your vehicles is stuck in the claims and crash repairs process is another day of lost revenue for them. So, we use digital claims management technology that speeds up the process.

You have a single point of contact for support. Push-notifications and online access keeps you updated 24/7 on claims and repairs.

PREMIUM ROADSIDE

Premium roadside assistance is included. In the event of a breakdown your employees are looked after and lost-productivity minimised.

The user-friendly 365 Roadside Assist app connects drivers to 24/7 Call Centre support with nationwide coverage to get them back on the road quickly.

SAFETY COACHING

Digitised driver coaching to promote safer driving habits is all part of the service. Short videos, sent by SMS, that promote behaviours that reduce crash risk and fuel usage. Our coaching can improve your profitability by:

- reducing excess payments
- reducing fuel costs
- reducing mechanical wear & tear

MERCURIEN
